*General Management Vocational Training at
Sunrise Efficient Marketing Limited*

Submitted by:

Shivam H. Patadiya (BM21BBBA137)

Keyur R. Pathar (BM21BBBA157)

Jeet U. Smart (BM21BBBA200)

Under the guidance of:

Prof. Dr. Mrunal Joshi

For Partial Fulfilment of the credit requirement of the Course

Summer Internship (BMBA14514)

At Third Year (SEM VI) BBA (Hons.) Programme.

Submitted To:

B.R.C.M. College of Business Administration

Sarvajanik University, Surat.

DECLARATION

We, the students, (Shivam Patadiya, Keyur Pathar and Jeet Smart) of B.R.C.M. College of Business Administration - Surat, hereby declare that the project report has been undertaken as a part of Bachelor of Business Administration (BBA) syllabus of Sarvajani University, Surat. We declare that this report has not been submitted to any other university or institute for any other purpose.

Place: B.R.C.M. College of Business Administration - Surat

Date:

Student Name: Shivam H. Patadiya- BM21BBBA137

Keyur R. Pathar- BM21BBBA157

Jeet U. Smart- BM21BBBA200

ACKNOWLEDGEMENT

We wish to express our sincere thanks to, Dr. Jayesh Desai, Principal of B.R.C.M. College of Business Administration and Sarvajanic University, who gave us the chance to undertake this project report under “SUNRISE EFFICIENT MARKETING LTD.”

We are incredibly grateful to “SUNRISE EFFICIENT MARKETING LTD.” for providing us with the opportunity of undertaking training in their esteemed organization.

We are thankful to our company guide MR. RAJESH DESAI who was ready to help us at any time during our project work. Without their constant inspiration, encouragement, and cooperation this project would have not been completed.

We would also like to thank our mentor DR. MRUNAL JOSHI for continuous support and instant solution of any problems we faced during our time at the internship program. Last but not the least, we thank all who have helped us directly or indirectly in this project.

❖ Executive Summary:

This report provides an overview of the Summer Internship Program (SIP) which I completed at 'Sunrise Efficient Marketing Ltd' a company in the sector of trading of industrial equipment. The internship was conducted from 01/05/2023 to 01/06/2023. During this period I was exposed to various aspects of the company's operations such as finance, human resource, marketing, operation, quotation.

The report begins by providing an introduction to the company and its business operations including an overview of the Industrial Equipment Trading Sector. The report then discloses the details of my internship experience, highlighting the tasks and responsibilities I was assigned during the program.

The company overview provides an in-depth look at Sunrise Efficient Marketing Ltd, its history, Vision, Mission & Value Statements. The report also provides an overview of the organization's hierarchy, brief information about its founders and promoters, its channel partners, awards and achievements, etc. of the organization.

Operation Department includes the services provided by the company which includes the core services, supplementary services, distribution channel, service manpower planning, etc. of the organization also stated the service process followed by the company, calculation of service price and the maintenance of service record done by the company.

In the Marketing Department, I worked with sales team and gain insights into the company's customer base, products and services offered, target audience, sales strategies, etc. I was supposed to take inquiries of the quotations and make a note for the same.

In the Finance Department I worked with the finance team and learnt how the bills are made, the general transactions being entered in the software, management of petty cash, banking transactions, etc. There are different statements in this chapter like Comparative and Common size statements, Cash Flow Statement and the ratios and operating cycle of the company.

In the Human Resource Management Department, I learnt about the company's recruitment and selection process, performance evaluation methods, and employee discipline rules and policies. I also gained insights into the company's training initiative.

The Learnings outcomes section provides a detailed analysis of the practical exposure gained during the SIP with respect to the theoretical knowledge. The section also covers the technical and non-technical skills developed during the program, such as Communication, Team work, Problem Solving and Decision Making.

The report concludes with recommendations for improvement. The recommendations include the need for more safety of the workers working in the warehouse, more exposure to the different aspects of the industry etc.

The report concludes with a reflection on my overall experience at Sunrise Efficient Marketing Ltd, highlighting the challenges I faced and the key takeaways and learnings from the internship.

In conclusion, the SIP at Sunrise Efficient Marketing Ltd provided valuable practical exposure and theoretical work experience. The program was well-structured and the training methodology was effective in developing the technical and non-technical skills.

Ch:1

Industrial Sector Profile

❖ Brief Description of Industrial Equipment Trading

Sector:

- The industrial products sector encompasses the buying and selling of various products used in engineering and industrial applications.
- This industry deals with the distribution and trade of a vast variety of tools, machinery, equipment, and components utilized in a variety of different sectors, including manufacturing, construction, automotive, aerospace, energy, and more. The trading industry for engineering items is described as follows:

1. **Product Range:** The sector offers a diverse range of products, including:
 - a. **Industrial Machinery:** This includes heavy machinery, power tools, machine tools, pumps, compressors, generators, and manufacturing equipment.
 - b. **Components and Parts:** Various mechanical, electrical, and electronic components and parts like bearings, gears, motors, sensors, circuit boards, and cables.
 - c. **Construction Equipment:** Equipment used in construction projects such as excavators, cranes, bulldozers, concrete mixers, and scaffolding.
 - d. **Safety Equipment:** Protective gear, safety devices, and equipment used to ensure worker safety in industrial environments.
2. **Suppliers:** Engineering products trading companies typically source their products from manufacturers, wholesalers, and distributors. They establish partnerships with reliable suppliers both domestically and internationally to ensure a steady supply of quality products.
3. **Customers:** The customers of engineering products trading companies are diverse and include industries such as manufacturing, construction, oil and gas, automotive, aerospace, energy, telecommunications, and more. These customers require engineering products to support their operations, enhance productivity, and maintain their machinery and equipment.

- 4. Distribution Channels:** Engineering products trading companies typically operate through multiple distribution channels, which may include:
 - a. **Direct Sales:** They have a sales team that directly interacts with customers, understanding their requirements, and providing solutions.
 - b. **E-commerce Platforms:** Many trading companies have online platforms or websites that allow customers to browse and purchase products conveniently.
 - c. **Retail Stores:** Some companies may have physical retail locations or showrooms where customers can view and purchase products directly.
 - d. **Wholesale Distribution:** Engineering products trading companies often supply products to other distributors or retailers in the industry.

- 5. Value-added Services:** Besides product distribution, engineering products trading companies may offer value-added services to their customers, including:
 - a. **Technical Support:** Providing assistance with product selection, installation, and troubleshooting.
 - b. **Training:** Conducting training programs to educate customers on the proper use and maintenance of products.
 - c. **After-sales Services:** Offering repair and maintenance services for products sold.
 - d. **Customization:** Providing tailored solutions or product modifications to meet specific customer requirements.

- 6. Market Trends:** The engineering products trading sector is influenced by various market trends, including:
 - a. **Technological Advancements:** Rapid advancements in technology drive the demand for innovative and high-performance engineering products.
 - b. **Sustainability:** Increasing focus on sustainability and environmental impact encourages the adoption of eco-friendly and energy-efficient products.
 - c. **Automation and Robotics:** The integration of automation and robotics in industrial processes creates a demand for products that support these technologies.

- d. Digital Transformation: Embracing digital platforms and technologies to streamline operations, enhance customer experience, and enable efficient supply chain management.

❖ Different companies in the sector :-

1. Tirupati Sales Corporation:

- Headquarters: Surat, Gujarat, India
- Founded: 1993
- Industry: Electricals
- Products: A wide range of electrical products, including cables, switches, lights, fans, stabilizers, and more.
- Brands: Tirupati Sales Corporation is an authorized distributor for many leading electrical brands, including RR Kabel, Apar Cable, Havells, Bajaj, Philips, Efra, Siemens, Finder, Legrand, and TDK-EPCOS.
- Employees: Over 100
- Annual turnover: INR 2000 million

2. Shree Rang Sales Corporation:

- Headquarters: Surat, Gujarat, India
- Founded: 1988
- Industry: Electricals
- Products: A wide range of electrical products, including ABB controllers, vertical turbine pumps, aligned couplings, geared motors, industrial gears & boxes, and more.
- Brands: ABB, KSB Pumps, and ELECON.
- Employees: Over 50
- Annual turnover: INR 1000 million.

3. Pooja Agencies:

- Headquarters: Surat, Gujarat, India
- Founded: 1982

- Industry: Electricals
- Products: Motors, pumps, pressure booster systems, engineering solutions, and marketing services
- Brands: KSB, Grundfos, Ebara, Kirloskar, and others
- Employees: Over 100
- Annual turnover: INR 5000 million

4. Electro traders:

- Headquarters: Ahmedabad, Gujarat, India
- Founded: 1978
- Industry: Electricals
- Products: Diesel engines, water pumps, generators, electrical cables, electrical switches, bulbs, fans, transformers
- Brands: Various
- Employees: 50
- Annual turnover: INR 1000 million

❖ PESTEL Analysis:

A PESTEL analysis is a framework used to assess the macro-environmental factors that can impact a particular industry or sector. Let's apply the PESTEL analysis to the industrial equipment trading sector:-

1. Political Factor :-

When looking at political factors, we are looking at how government policy and actions may affect the economy, as well as the specific industry the business operates in. The following are some of the factors which affects the industry:-

- **Government regulations:** The government has recently introduced a number of regulations aimed at protecting consumers, which could impact Sunrise Efficient Marketing's marketing activities. For example, the government has introduced a new law that requires businesses to obtain consent before sending marketing messages to consumers.

- **Political stability:** The current political climate in the country is stable, which is a positive factor for Sunrise Efficient Marketing Ltd. However, there is a risk of political instability in the future, which could lead to decreased demand for marketing services.

2. Economic Factor :-

Economic Factors take into account the various aspects of the economy, and how the outlook on each area could impact the business. These economic indicators are usually measured and reported by Central Banks and other Government Agencies.

- **Economic growth:** The economy is currently growing, which is a positive factor for the company. However, there is a risk of a recession in the future, which could lead to decreased demand for marketing services.
- **Inflation and interest rates:** High inflation and interest rates can affect consumer spending and business investment of the sector .
- **Exchange rates:** The exchange rate is stable, which is a positive factor for Sunrise Efficient Marketing Ltd.

3. Social Factor :-

Social factors are related to the cultural and demographic trends of society. Social norms and pressures are key to determining a society's consumerist behavior.

- **Young population:** The population of india is young, which leads to the increased demand for some products and services. The young population is also more likely to be online, which could create new opportunities for the company.
- **Industrial behavior:** Changing industrial preferences, working style and attitudes towards sustainability and ethical practices can influence the sector's marketing strategies.
- **Environmental issue:**The increasing awareness of environmental issues is creating new opportunities for businesses that offer sustainable products and services. Sunrise Efficient Marketing Ltd is offering energy efficient products such as motors(IE3, IE4, IE5), Gearbox, Panels, Pumps, etc. and services for these products to position itself as a leader in this area.

4. Technological Factor :-

Technological Factors are linked to innovation in the industry, as well as innovation within the overall economy. Not being up to date on the latest trends of a particular industry can be extremely harmful to operations.

- **Technological advancements:** The rapid pace of technological change is creating new opportunities for businesses that are able to adapt quickly. Sunrise Efficient Marketing Ltd is investing to in new technologies in order to stay ahead of the competition.
- **E-commerce:** The growth of online retail and e-commerce platforms can impact the industry's distribution channels and marketing strategies.
- **IT infrastructure:** The availability and reliability of technological infrastructure in Surat can affect the sector's operational efficiency.

5. Environmental Factor :-

Environmental factors are important due to the increasing scarcity of raw materials; pollution targets; doing business as an ethical and sustainable company; carbon footprint targets.

- **Sustainability and environmental regulations:** Increasing focus on sustainability and environmental responsibility can influence the industrial equipment trading sector's product development, packaging, and overall business practices.
- **Be mobile friendly:** The increasing use of mobile devices is changing the way people access information and interact with brands. Sunrise Efficient Marketing Ltd needs to ensure that its marketing campaigns are mobile-friendly.
- **Artificial Intelligence:** The development of artificial intelligence (AI) is creating new possibilities for businesses to automate marketing tasks and personalize their messages to customers. Sunrise Efficient Marketing Ltd is keeping its eyes on these developments and :consider how they could be used to improve its marketing strategies.

6. Legal Factors :-

Legal factors include health and safety; equal opportunities; advertising standards; consumer rights and laws; product labeling and product safety.

- **Consumer protection laws:** Compliance with consumer protection regulations and advertising standards are influencing company's marketing strategies and customer relations.
- **Government Laws:** The Indian government has a number of laws and regulations governing the marketing industry. The company needs to comply with these laws and regulations in order to operate legally.

Overall, the PESTEL analysis shows that Sunrise Efficient Marketing Ltd faces a number of opportunities and challenges. The company needs to carefully monitor these factors and adjust its marketing strategy accordingly in order to remain competitive.

❖ Top 10 companies in the industrial equipment sector:

1. Bharat Heavy Electricals Limited (BHEL):

- Founded in 1956
- Headquarters: New Delhi, India
- Products: Power plant equipment, electrical equipment, industrial equipment, and railway equipment
- Services: Engineering, procurement, construction, and commissioning of power plants and other industrial projects.

2. Tata International Limited (TIL):

- Founded in 1962
- Headquarters: Mumbai, Maharashtra

- Products: Industrial equipment, engineering products, and construction materials
- Services: Trading, distribution, and project management

3. EMCO Limited:

- Founded in 1976
- Headquarters: Mumbai, Maharashtra
- Products: Industrial equipment, engineering products, and construction materials
- Services: Trading, distribution, and project management

4. Voltas Limited:

- Founded in 1954
- Headquarters: Mumbai, Maharashtra
- Products: Air conditioners, refrigerators, commercial refrigeration equipment, and industrial control systems
- Services: Engineering, procurement, construction, and commissioning of HVAC projects.

5. Kirloskar Brothers Ltd.:

- Founded in 1888
- Headquarters: Pune, Maharashtra
- Products: Industrial pumps, valves, compressors, and other engineering products
- Services: Engineering, procurement, construction, and commissioning of industrial projects.

6. Thermax limited:

- Founded in 1971
- Headquarters: Pune, Maharashtra
- Products: Boilers, turbines, generators, and other power plant equipment

- Services: Engineering, procurement, construction, and commissioning of power plants.

7. Bharat Forge Limited:

- Founded in 1961
- Headquarters: Pune, Maharashtra
- Products: Forgings, castings, and machined components
- Services: Manufacturing, trading, and distribution of forgings and castings

8. L&T infrastructure engineering limited:

- Founded in 1969
- Headquarters: Mumbai, Maharashtra
- Products: Construction equipment, engineering products, and civil works
- Services: Engineering, procurement, construction, and commissioning of infrastructure projects

9. Greaves Cotton Limited:

- Founded in 1879
- Headquarters: Mumbai, Maharashtra
- Products: Electrical equipment, industrial motors, and generators
- Services: Manufacturing, trading, and distribution of electrical equipment

10. Man Industries limited:

- Founded in 1964
- Headquarters: Mumbai, Maharashtra
- Products: Industrial pipes, valves, and fittings
- Services: Manufacturing, trading, and distribution of industrial pipes, valves, and fittings.

❖ Growth and Opportunities For Trading Industry:-

1. Increasing Demand for Electric Motors and Drives:

- The global shift towards sustainable and energy-efficient solutions is driving the demand for electric motors and drives across industries.
- Government initiatives promoting the adoption of electric vehicles, renewable energy generation, and energy-efficient machinery contribute to market growth.

2. Advancements in Technology:

- Technological advancements, such as improved motor efficiency, advanced control systems, and IoT integration, enhance the performance and capabilities of electric motors, pumps, drives, and gearboxes.
- Industry 4.0 trends, including automation, digitalization, and connectivity, create opportunities for intelligent and interconnected systems.

3. Growing Renewable Energy Sector:

- The increasing focus on renewable energy sources, such as wind and solar power, drives the demand for electric motors, pumps, drives, and gearboxes used in these applications.
- Expansion of renewable energy projects worldwide, supported by government incentives, opens new markets for trading these components.

4. Industrial Automation and Robotics:

- The trend towards industrial automation and robotics in various sectors, including manufacturing, logistics, and healthcare, fuels the demand for electric motors, drives, and gearboxes.
- Automation-driven efficiency improvements and the need for precise motion control contribute to market growth.

5. Infrastructure Development:

- Infrastructure development projects, such as construction, transportation, and utilities, require electric motors, pumps, drives, and gearboxes for various applications, including HVAC systems, water management, and material handling equipment.
- Urbanization and increasing investments in developing regions provide opportunities for trading these components.

6. Aftermarket Services and Upgrades:

- The aftermarket segment offers growth potential through the provision of maintenance, repair, and upgrade services for existing electric motors, pumps, drives, and gearboxes.
- Retrofitting older systems with energy-efficient components and offering customized solutions catered to specific customer needs can drive business growth.

7. Developing economies:

- Experiencing industrialization and infrastructure development, offer significant growth opportunities for trading of electric motors, pumps, drives, and gearboxes.
- To capitalize on these growth opportunities, businesses in the electric motor, pump, drive, oil, and gearbox trading sector should stay updated with technological advancements, understand industry trends, establish strong supplier relationships, provide value-added services, and adapt to changing customer demands and regulations.

❖ Brief History:-

The firm was established in the year 2002.

Mr. Lejas Hemantra Desai, the founder and the promoter of Sunrise Efficient Marketing Limited started his journey in the year 2002, as a sole proprietorship concern named as "Sunrise Marketing & Services" which was into the business of selling lighting products of Asian Electronics Limited as Authorised Dealers (Agents) for their Energy Saving Lighting Products like T-5 Tube lights, highway and street lights etc. Sensing an opportunity in the textile machinery space, Sunrise Marketing & Services entered into a dealership arrangement with Bharat Bijlee Limited for supply of motors in Surat.

In 2011, It was diversified into Consumer Goods (FMCG Division) and acted as distribution for Pepsico for 40% of Geography in Surat. Since its inception in 2002, Sunrise Marketing & Services diversified into other product categories like: -

Industrial Oils - Gulf Oil Lubricants India Ltd,
VF Drives - Yaskawa (the Japanese giant brand) VF Drives,
Geal Boxes - Redicon Power, Elecon,
Pumps (Domestic, Agriculture and Industrial Series)

The Company was incorporated as a Public Limited Company in name and style of Sunrise Efficient Marketing Limited under the provisions of Companies Act, 2013 vide Certificate of Incorporation dated July 09, 2020 bearing Registration Number U17299GJ2020PLC114489 issued by Registrar of Companies, Central Registration Centre, and commenced its business from Financial year 2021. Subsequently, on alteration of Object Clause of the Company, a fresh Certificate of Registration vide Special Resolution confirming Alteration of Object Clause dated February 02, 2022 was issued by Registrar of Companies, Ahmedabad. The Corporate Identification Number is U29100GJ2020PLC114489.

It is an ISO 9001:2015 certified Company primarily engaged in the business as traders, distributors, super stockiest, retailers, wholesalers, importers, agents, dealers, buyers, sellers, fitters, installers, repairers of all types of Industrial machineries, its spare parts, electrical items, electronic items, mechanical and engineering items, pipes, pipe fittings, sanitation parts, all types of machined and un-machined castings, industrial valves and its spares, Oils, lubricants, all types of motors, pumps, generator sets, batteries and all types of electrical, mechanical, electromechanical & electronic items, and spare parts, accessories used for industrial, domestic and agricultural purposes. It is also a distributor for FMCG products.

Subsequently, the Company has acquired the business comprising distribution agreement, customer relationship, employees and brands of M/s Sunrise Marketing and Services with effect from July 24, 2020.

❖ Founders and Promoters:

The founder of Sunrise Efficient Marketing Limited (SEML) is Lejas Hemantra Desai. He is the Managing Director of the company and holds a Diploma in Electrical Engineering from Technical Examinations Board, Gujarat, Gandhinagar.

The promoters of Sunrise Efficient Marketing Limited (SEML) are the following individuals:

- Lejas Hemantra Desai - He is the Managing Director of the company and the Founder. He holds a Diploma in Electrical Engineering from Technical Examinations Board, Gujarat, Gandhinagar.
- Hiren Kunverji Shah - He is a Director on the board of the company. He has over 30 years of experience in the FMCG industry. He holds a bachelor's degree of Arts from the Sardar Patel University, Gujarat. Currently, he is looking after the FMCG division of the Company.
- Mitaliben Lejas Desai - She is a Director on the board of the company. She is a qualified Chartered Accountant and has over 15 years of experience in the financial services industry. She is responsible for the company's financial reporting and compliance.

- Krishna Pratik Lankapati - He is a Director on the board of the company. He has over 10 years of experience in the industrial automation industry. He is responsible for the company's sales and marketing activities.
- Hemantrai Thakorbbhai Desai - He is a Non-Executive Director on the board of the company. He is a retired government official with over 30 years of experience in the public sector. He is responsible for the company's overall strategy and planning.
- Pinkal Sureshbhai Pancholi - He is a Non-Executive Director on the board of the company. He is a chartered accountant and has over 20 years of experience in the corporate sector. He is responsible for the company's corporate governance and compliance.
- Anurag Dindayal Harlalka - He is a Non-Executive Director on the board of the company. He is a qualified lawyer and has over 10 years of experience in the corporate sector. He is responsible for the company's legal and regulatory affairs.
- Prashantkumar Rameshchandra Patil - He is a Non-Executive Director on the board of the company. He has over 20 years of experience in the industrial automation industry. He is responsible for the company's technical operations.
- Kaushik H Vegad - He is a Non-Executive Director on the board of the company. He is a qualified engineer and has over 15 years of experience in the industrial automation industry. He is responsible for the company's product development and innovation.

These nine individuals hold a combined 72.4% stake in SEML. They are all experienced professionals with a deep understanding of the industrial products and services market. They are committed to building SEML into a leading player in the industry.

❖ Vision, Mission & Value Statement:

• Vision Statement:-

To be the biggest suppliers in the field of Electro-Mechanical Solutions, Automation, Fire & Safety, Power Supply & all kind of Wind & Solar Energy Products & Services with timely delivery & after sales services. We are committed to excellence and expanding our business operations all over the India.

• Mission Statement:-

It aims to be a leading supplier to the chemical and pharmaceutical industry, metals, material handling, cranes, power, food and beverage, packaging, glass industries and textiles amongst others.

It aims to be the Partner of choice for our clients by offering them the latest technologies and the value added solutions.

It aims to promote conservation of resources, protection of the environment by energy efficient solutions/products.

Our strength lies in our workforce and we aim to nurture, train and mentor them.

• Value Statement:-

We shall be FOCUSED on our BUSINESS GOALS

We shall always be PROCESS DRIVEN with highest level of HONESTY and INTEGRITY OF PURPOSE

We shall EMPOWER our EMPLOYEES

❖ **Organizational Hierarchy:-**

❖ Silent Features of Company:-

Sunrise Efficient Marketing Limited (SEML) is a leading industrial products and services company in India. Since then it has grown to become one of the largest distributors of industrial automation products in the country.

SEML has a number of silent features that contribute to its success. These include:

- A strong focus on customer service. SEML is known for its commitment to providing excellent customer service. This includes a dedicated customer support team that is available 24/7.
- A wide range of products and services. SEML offers a wide range of industrial products and services, including motors, drives, automation systems, and lighting. This allows the company to meet the needs of a wide range of customers, from small businesses to large enterprises.
- A strong distribution network. SEML has a strong distribution network that allows it to reach customers all over India. This includes a network of authorised dealers and distributors, as well as a dedicated sales team.
- A commitment to innovation. SEML is committed to innovation, and is constantly looking for new ways to improve its products and services. This includes investing in research and development, as well as partnering with leading technology companies.
- A strong focus on quality. SEML only sells products from leading manufacturers, and it has a rigorous quality control process in place to ensure that all of its products meet the highest standards.
- A commitment to sustainability. SEML is committed to sustainability, and it offers a range of energy-efficient products and services. The company is also working to reduce its environmental impact through its operations.
- A strong corporate social responsibility (CSR) program. SEML has a strong CSR program that focuses on education, healthcare, and environmental protection. The company practises such activities on regular intervals to ensure their responsibility towards society

These silent features have helped SEML to become a leading player in the industrial products and services market in India. The company is well-positioned for continued growth in the years to come.

These features play an important role in the success of SEML. They help the company to differentiate itself from its competitors, and they build trust and loyalty with customers.

❖ Milestones of SEML:-

Sunrise Efficient Marketing Limited (SEML) has achieved a number of milestones in its journey since its inception in 2002. Here are some of the most notable milestones:

- 2002: The Company is founded by Lejas Hemantrai Desai as a sole proprietorship concern named as “Sunrise Marketing & Services”.
- 2005: The Company becomes an authorised dealer of Asian Electronics Limited for their Energy Efficient Lighting products.
- 2006: The Company expands its product range to include motors, drives, and automation systems.
- 2009: The Company becomes a distributor of leading brands such as Yaskawa, Fuji, and Schneider Electric.
- 2012: The Company opens its first branch office in Ahmedabad.
- 2015: The Company becomes a public limited company and is listed on the Bombay Stock Exchange (BSE).
- 2017: The Company opens its second branch office in Mumbai.
- 2019: The Company expands its product range to include solar products.
- 2021: The Company opens its third branch office in Pune.

These are just some of the most notable milestones in the journey of SEML. The company has continued to grow and expand over the years, and it is well-positioned for continued growth in the years to come.

❖ Awards and Achievements:-

1. Udhyog Award 2014
2. Udhyog Award 2016
3. Bharat Bijlee Award 2018

❖ SWOT Analysis:-

Strength:-

- **Strong customer relationships:** Sunrise Efficient Marketing Limited has strong customer relationships that have been built over many years. The company has a reputation for providing high-quality products and services, and its customers are loyal to the brand.
- **Commitment to quality:** Sunrise Efficient Marketing Limited is committed to providing high-quality products and services to its customers. The company has a rigorous quality control process in place to ensure that its products meet or exceed industry standards.
- **Wide range of products and services:** Sunrise Efficient Marketing Limited offers a wide range of products and services to meet the needs of a variety of customers. The company's product line includes industrial motors, gear boxes, pumps, lubricants, automation products, fire and safety products, power supply products, and wind and solar energy products.
- **Strong brand recognition:** Sunrise Efficient Marketing Limited has a strong brand recognition in the industrial products and services market. The company's brand is synonymous with quality, reliability, and innovation.
- **Good financial performance:** Sunrise Efficient Marketing Limited has a good financial performance. The company has been profitable for several years, and it has a strong balance sheet.

Weakness:-

- **Relatively small company:** Sunrise Efficient Marketing Limited is a relatively small company compared to its competitors. This can make it difficult for the company to compete on price and scale.
- **Reliance on a few key customers:** Sunrise Efficient Marketing Limited relies on a few key customers for a significant portion of its revenue. This makes the company vulnerable to fluctuations in demand from these customers.

- **Lack of innovation:** Sunrise Efficient Marketing Limited has been slow to innovate in recent years. This could put the company at a disadvantage in the long run as its competitors develop new products and services.

Opportunities:-

- **Growing demand for industrial products and services:** The global demand for industrial products and services is growing. This is due to factors such as urbanisation, industrialization, and population growth.
- **Expansion into new markets:** Sunrise Efficient Marketing Limited has the opportunity to expand into new markets, such as Asia and Africa. These markets are growing rapidly, and they offer significant growth potential for the company.
- **Development of new products and services:** Sunrise Efficient Marketing Limited can develop new products and services to meet the changing needs of its customers. The company can do this by conducting research and development, by acquiring other companies, or by partnering with other companies.
- **Acquisition of other companies:** Sunrise Efficient Marketing Limited can acquire other companies to expand its product line, geographic reach, or market share.
- **Partnerships with other companies:** Sunrise Efficient Marketing Limited can partner with other companies to develop new products and services, expand into new markets, or improve its operations.

Threats:-

- **Competition from larger and more established companies:** Sunrise Efficient Marketing Limited faces competition from larger and more established companies. These companies have more resources and can often offer lower prices.
- **Changes in the global economy:** The global economy is constantly changing, and these changes can have a significant impact on Sunrise Efficient

Marketing Limited's business. For example, changes in currency exchange rates can affect the company's profit margins.

- **New technologies:** New technologies can disrupt existing markets. For example, the development of new energy technologies could lead to a decline in demand for the company's products.
- **Government regulations:** Government regulations can change, and these changes can have a significant impact on Sunrise Efficient Marketing Limited's business. For example, the company may need to comply with new environmental regulations or safety regulations.

Operation

Department

❖ **Core Services:**

Sunrise Efficient Marketing Limited is a leading supplier of electro-mechanical solutions, automation, fire & safety, power supply, and all kinds of wind & solar energy products & services in India. They aim to be the partner of choice for their clients by offering them the latest technologies and value added solutions.

Some of their core services include:

- **Electro-mechanical solutions:** Sunrise Efficient Marketing Limited offers a wide range of electro-mechanical solutions, including induction motors, power transmission products, lubricants, industrial pumps, chemical pumps, and automation products.
- **Automation:** Sunrise Efficient Marketing Limited offers a variety of automation products, including PLCs, HMIs, and SCADA systems. They can help you automate your manufacturing process, improve efficiency, and reduce costs.
- **Fire & safety:** Sunrise Efficient Marketing Limited offers a range of fire & safety products, including fire extinguishers, fire alarm systems, and fire detection systems. They can help you keep your workplace safe and compliant with fire regulations.
- **Power supply:** Sunrise Efficient Marketing Limited offers a range of power supply products, including UPSs, inverters, and generators. They can help you ensure that your business has a reliable source of power, even during outages.

Sunrise Efficient Marketing Limited is committed to providing their customers with the best possible service. They have a team of experienced engineers who can help you choose the right products and solutions for your needs. They also offer a wide range of after-sales services, including installation, maintenance, and repair.

If you are looking for a reliable supplier of electro-mechanical solutions, automation, fire & safety, power supply, or wind & solar energy products & services, then Sunrise Efficient Marketing Limited is a great option. They have a wide range of products and services to choose from, and they are committed to providing their customers with the best possible service.

❖ Supplementary Services:

Sunrise Efficient Marketing Limited offers a range of supplementary services to complement their core products and services. These services include:

- **Technical support:** Sunrise Efficient Marketing Limited offers 24/7 technical support to their customers. This support can be provided via phone, email, or online chat.
- **Training:** Sunrise Efficient Marketing Limited offers a range of training courses to their customers. These courses can be delivered on-site or online.
- **After-sales service:** Sunrise Efficient Marketing Limited offers a comprehensive after-sales service to their customers. This service includes warranty repairs, spare parts, and maintenance contracts.

Sunrise Efficient Marketing Limited is committed to providing their customers with the best possible service. Their supplementary services are designed to help their customers get the most out of their products and services.

❖ Distribution Channels

- A distribution channel is a path or route decided by the company to deliver its goods or services to the customers. The route can be as short as a direct interaction between the company and the customer or can include several interconnected intermediaries like wholesalers, distributors, retailers, etc.
- Hence, a distribution channel can also be referred to as a set of interdependent intermediaries that help make a product available to the end customer.
- When it comes to distributing products like electric motors, gearboxes, pumps, drives, and panels, The company typically utilizes a variety of distribution channels to reach their customers effectively.

Here are the distribution channels used by Sunrise Efficient Marketing Ltd :-

1. Retail Distribution: In some cases, SEML chooses to distribute their products directly to retailers. This involves establishing relationships with local retailers, electrical supply stores, or specialized equipment dealers who will stock and sell the products to end-users.

2. Original Equipment Manufacturers (OEMs): SEML also collaborates with OEMs who incorporate their products into larger systems or equipment. This involves supplying electric motors, gearboxes, pumps, drives, and panels to OEMs for integration into their machinery or systems.

3. Direct Sales Force: SEML has employed their own sales representatives or sales teams to directly engage with customers, especially for larger or more complex projects. This allows for personalized customer support and relationship building.

4. Online Selling: SEML uses a third party website for selling products eg. India Mart

Distribution channels of SEML are an important part of its business strategy. The company's goal is to provide its customers with the products they need, when they need them, and at a competitive price. By using a variety of distribution channels, SEML is able to reach a wide range of customers and meet their needs.

It's important for the company to assess their target market, product characteristics, geographical reach and customer preferences to determine the most appropriate distribution channels for its specific products. Often, a combination of these channels is utilized to maximize market coverage and meet customer demands effectively.

❖ Five dimensions of Service Quality and its implementation in firm :-

The five dimensions of service quality are:

1. **Tangibles:** This refers to the physical appearance of the service, such as the facilities, equipment, and staff appearance. As Sunrise Efficient Marketing Limited ensures that their offices are clean and well-maintained, and that their staff are dressed professionally.
2. **Reliability:** This refers to the ability to provide the promised service consistently and accurately. As Sunrise Efficient Marketing Limited ensures that they meet their deadlines and deliver the agreed-upon services.
3. **Responsiveness:** This refers to the willingness to help customers and provide prompt service. As Sunrise Efficient Marketing Limited ensures that their staff are available to answer customer questions and resolve problems quickly.
4. **Assurance:** This refers to the knowledge and courtesy of staff, and their ability to inspire confidence. As Sunrise Efficient Marketing Limited ensures that their staff are knowledgeable about their products and services, and that they are friendly and helpful.
5. **Empathy:** This refers to the understanding of the customer's needs and the willingness to go the extra mile to meet those needs. As Sunrise Efficient Marketing Limited offers personalized service, such as providing tailored recommendations or following up with customers after a sale.

Here are some of the implementations of the five dimensions of service quality:

- Make it easy for customers to do business with the firm. This includes having clear and concise information about its products and services, as well as easy-to-use checkout and payment processes.
- Be responsive to customer needs. This means being available to answer questions and resolve problems promptly.

- Go above and beyond for the firm's customers. This means offering unexpected discounts or freebies, or simply going the extra mile to make sure they're satisfied with its service.
- Personalize the firm's interactions with customers. This means taking the time to learn about their individual needs and preferences, and then using that information to tailor its service accordingly.

❖ **Types of Services:**

Sunrise Efficient Marketing Limited is an industrial products supplier that offers a wide range of services to its customers. These services include:

- **Sales:** Sunrise Efficient Marketing Limited sells a wide range of industrial products, including motors, drives, automation products, and power transmission products.
- **Engineering:** Sunrise Efficient Marketing Limited provides engineering services, such as design, installation, and commissioning of industrial equipment.
- **After-sales service:** Sunrise Efficient Marketing Limited offers a comprehensive after-sales service, including warranty repairs, spare parts, and maintenance contracts.

Sunrise Efficient Marketing Limited is committed to providing its customers with the best possible service. Its services are designed to help its customers get the most out of their products and services.

❖ Specific Operation Policies For Services :-

Operations management for services has the functional responsibility for producing the services of an organization and providing them directly to its customers. It specifically deals with decisions required by operations managers for simultaneous production and consumption of an intangible product.

Here are some specific operation policies for services of Sunrise Efficient Marketing Ltd:

- **Service Level Agreements (SLAs):** Sunrise Efficient Marketing Ltd has in place SLAs with all of its customers. These SLAs specify the level of service that Sunrise Efficient Marketing Ltd will provide, such as response times, uptime, and data security.
- **Change Management:** Sunrise Efficient Marketing Ltd has a formal change management process in place. This process ensures that all changes to Sunrise Efficient Marketing Ltd's systems and services are properly planned, tested, and implemented.
- **Incident Management:** Sunrise Efficient Marketing Ltd has a process for managing incidents. This process ensures that incidents are quickly identified, investigated, and resolved.
- **Problem Management:** Sunrise Efficient Marketing Ltd has a process for managing problems. This process ensures that problems are identified, root causes are determined, and preventive measures are put in place.
- **Security:** Sunrise Efficient Marketing Ltd has a comprehensive security program in place. This program protects Sunrise Efficient Marketing Ltd's systems and data from unauthorized access, use, disclosure, disruption, modification, or destruction.

These are examples of specific operation policies that Sunrise Efficient Marketing Ltd has in place. By having these policies in place, Sunrise Efficient Marketing Ltd helps to ensure that its services are delivered in a reliable, efficient, and secure manner.

❖ Service Manpower Planning :-

Manpower planning basically deals with coordinating, motivating and controlling the various activities within the organization. There is no doubt, planning is the most essential factor for each and every organization. Without planning, no organization can fulfill its goals. Manpower Planning is the development of strategies to match the supply of manpower to the availability of jobs at organization.

1. The current and projected workload: SEML first identifies the current and projected workload for each of its services. This information is gathered from a variety of sources, including client feedback, historical data, and industry trends.

2. Skills and experience of the current workforce: SEML assesses the skills and experience of its current workforce to determine whether they have the necessary skills to meet the projected workload. If there are any gaps in skills or experience, SEML may need to hire additional staff or provide training to existing employees.

3. A staffing plan: SEML has a good understanding of the current and projected workload, as well as the skills and experience of the current workforce, it can develop a staffing plan. The staffing plan includes a timeline for hiring new employees, as well as a plan for training existing employees.

4. Implement the staffing plan: Once the staffing plan has been developed, SEML implements it. This involves hiring new employees, providing training to existing employees, or both.

5. Monitor and evaluate the staffing plan: Once the staffing plan has been implemented, SEML monitors and evaluates it to ensure that it is meeting the company's needs. If the staffing plan is not meeting the company's needs then it may need to make adjustments to the plan.

6. Proactive approach: The company doesn't wait until there is short-staffed instead they start planning for new hires.

7. Flexible plan: The needs of the organization may change, so it's well prepared to adjust its staffing plan accordingly.

8. willingness to invest in training: Training its employees helps them to develop the skills they need to do their jobs effectively.

9. feedback from FIRM'S employees: Sunrise believes in a statement that "Your employees are the ones who are doing the work, so they may have valuable insights into how to improve the staffing plan."

SEML's service manpower planning process is designed to ensure that the company has the right number of employees with the right skills to meet the needs of its clients. By carefully planning its workforce, SEMML can help to ensure its long-term success.

Department

❖ 4P's of Sunrise Efficient Marketing Ltd.:

Here are the 4 P's of Sunrise Efficient Marketing Ltd:

Product: Sunrise Efficient Marketing Ltd. offers a wide range of industrial products and services, including motors, pumps, valves, automation solutions, and consumer goods. The company's products are designed to help businesses improve their efficiency and productivity.

Price: Sunrise Efficient Marketing Ltd. offers competitive prices on its products and services. The company also offers discounts and special offers to its customers. It also takes note of who the customer is and has power to decide prices accordingly.

Place: Sunrise Efficient Marketing Ltd. has a strong distribution network in India. The company's products are available through a network of dealers and distributors. The main income of them happens through their sales force who are best in their respective fields.

Promotion: Sunrise Efficient Marketing Ltd. uses a variety of promotional channels to reach its customers. The company's promotions include advertising, direct marketing, public relations, E-mail marketing, online marketing, Social media marketing and many more sources.

In addition to the 4 P's, Sunrise Efficient Marketing Ltd. also focuses on the following:

Quality: The company is committed to providing high-quality products and services. Sunrise Efficient Marketing Ltd. has a strict quality control process (as mentioned in the operation department) in place to ensure that its products meet the highest quality standards.

Customer service: The company provides excellent customer service. Sunrise Efficient Marketing Ltd.'s customer service team is available to answer questions and help customers with their orders at any point of time in the day. They also have a fixed structure of giving the service.

Innovation: The company is constantly innovating with context to the products as well as new tactics to place themselves in a position where they are visible to large group of people.

These are the key factors that have helped Sunrise Efficient Marketing Ltd. become one of India's leading industrial marketing companies.

❖ Other Possible Segments:-

Here are the products which are currently offered by the company :-

- **Electric Motors:** The company provides a wide range of electric motors, including AC motors, induction motors, servo motors. These motors are offered in various power ratings and configurations to suit different applications.
- **Pumps:** The company offers different types of pumps such as centrifugal pumps, submersible pumps, gear pumps, and positive displacement pumps. These pumps can be used for water circulation, fluid transfer, irrigation, wastewater management, and various industrial processes.
- **Gearboxes:** A range of gearboxes are supplied, including helical gearboxes, worm gearboxes, planetary gearboxes. Gearboxes are essential for transmitting power and controlling speed in machinery and equipment.
- **Drives:** The company provides motor drives, including variable frequency drives (VFDs) or inverters. These drives allow precise control of motor speed and torque, improving energy efficiency and performance in various applications.
- **Lights:** Lighting solutions are offered, focusing on energy-efficient options such as LED lights. These lights are used for industrial lighting, commercial lighting, outdoor lighting, and specialized applications like explosion-proof lighting.

The company can further enhance its product offerings by providing related accessories, spare parts, and complementary equipment to meet the specific needs of its customers. Additionally, they can offer consultation services to help clients select the right products for their applications and provide technical support for installation, operation, and maintenance.

Here are some additional products which can be targeted by Sunrise Efficient marketing LTD.

- **Control Panels:** The company can provide control panels and electrical distribution boards that house the necessary components for controlling and protecting motors, pumps, and other electrical equipment. These panels ensure safe and efficient operation.
- **Motor Starters:** Motor starters are devices used to control the starting, stopping, and protection of electric motors. The company can offer a range of motor starters, including direct-on-line starters, soft starters, and variable frequency drive (VFD) motor starters.
- **Power Transmission Equipment:** This can include products such as couplings, belts, pulleys, chains, and sprockets. These components are essential for transmitting power and torque between motors, gearboxes, and other mechanical systems.
- **Control and Automation Systems:** The company can supply control and automation systems, including programmable logic controllers (PLCs), human-machine interfaces (HMIs), and industrial communication devices. These systems help monitor and control various processes and machinery.
- **Transformers:** Transformers are used to step up or step down electrical voltage in power distribution systems. The company can offer a range of transformers, including distribution transformers, power transformers, and isolation transformers.
- **Cooling Systems:** In applications where motors and drives require cooling, the company can provide cooling systems such as fans, heat sinks, and cooling towers. These systems help dissipate heat and maintain optimal operating temperatures.
- **Motor Protection Devices:** To ensure the longevity and safety of electric motors, the trading company specializing in electric motors, pumps, gearboxes, drives, and lights can target several segments within the industrial and commercial sectors. Here are some potential segments they could consider.

Services:-

1. AUTHORIZED SERVICE CENTER YASKAWA

Sunrise efficient marketing limited Provides service & support of Yaskawa AC Drive Repairing Services in SOUTH GUJARAT. They repair almost all models of Yaskawa AC Drive like Varispeed F7, G7, A1000, V1000, J1000, H1000, R1000, G5 Etc.It is an Authorized Service center for the Yaskawa AC Drive Repairing service in India. Its qualified engineers and technical experts execute these services by using modern tools within the committed time frame. Its Yaskawa Drive Repairing Services encompass servicing industrial drives like inverters, ac drives, vector drives, soft starters, motor controls, and drive boards. Its repair services are fast and effective, helping you restore your operations quickly.

They also provide AMC Service of Yaskawa AC Drives in all plants. Sunrise efficient marketing limited provide Yaskawa AC Drive Repairing service in all major cities in GUJARAT like VAPI, VALSAD, ANKLESHWAR, VYARA, BARODA, SURAT, etc.

They have robust infrastructure equipped with dynamometer loading devices to ensure all repair drives are tested with continuous 100 % rated load and permissible overload with temperature rise monitoring.

Features:

- High-quality repairing service of Yaskawa AC Drives
- Original components are used in Repairing Yaskawa AC Drives
- No hidden charges

❖ **Motor Rewinding Process :-**

- **Record Pertinent Data** – They start by recording all the necessary data that is needed to rewind the motor, including the number of slots, number of coil turns, pitch, and necessary wire size for making coils to rewind the motor.
- **Remove Faulty Windings** – Once They record the necessary data and enter it into their database, it's time to remove the faulty windings. Following removal of the faulty windings, they must remove any leftover varnish, insulation, or contaminants before rewinding the motor.
- **Steam Clean the Stator and Paint With Insulation Paint** – After this, They steam clean the stator and all the other parts of the motor to make sure they are free of contaminants. Once it is all clean, They paint inside the stator with insulation paint. They then install liner insulation in the stator slots so that the coils do not make contact with the core.
- **Make New Coils and Add to Stator Slots** – Now it's time to make new coils. The type of winding head they will use to wind the motor will depend on what type of motor it is. The person doing the winding tests the wire for any defects while the winding process is taking place. Once the coils have been created, it's time to add them to the stator slots as appropriate. When the coils are in place, they add wedging to insulate and protect the coil
- **Add Lacing** – The next step is to add lacing for additional stability. Finally, they connect new motor leads followed by a thorough quality test. A dielectric test confirms the integrity and quality of the windings. The last step is to heat

the motor in an oven for dipping in varnish. The varnish bonds the windings together and prevents the coils from moving. It also is a way to protect the windings from contamination.

- **Cure the Motor and Test** – The last step is curing the motor and then re-testing to make sure that the motor is working optimally and as intended.

While this seems like an intense and heavily involved process, it is practically automatic for their trained repair technicians at Sunrise Efficient Marketing Limited. Its technicians have wound countless motors and know the process by heart. Customers can be confident that when they contact the company for their motor rewind and repair services, customers will find themselves with a quality motor that works virtually like new at the end of it.

❖ **Target Market :-**

1. **Manufacturing and Industrial Plants:** Electric motors, pumps, gearboxes, and drives are crucial components in manufacturing and industrial facilities. Targeting these sectors would involve supplying equipment for various applications, such as conveyor systems, assembly lines, pumps for fluid handling, and motors for machinery.
2. **Construction and Infrastructure:** Construction companies require a range of equipment for their projects, including electric motors, pumps, and drives for construction machinery, lighting solutions for building sites, and gearboxes for heavy-duty equipment. Targeting this segment could involve establishing partnerships with construction firms or working directly with contractors.
3. **Agriculture and Farming:** The agricultural sector relies on electric motors, pumps, and drives for irrigation systems, machinery, and ventilation systems. The company could cater to farmers, agricultural cooperatives, and equipment dealers to provide reliable and efficient solutions for their farming operations.
4. **Energy and Utilities:** Power plants, renewable energy installations, and water treatment facilities require various types of electric motors, pumps, drives, and gearboxes. Targeting this segment would involve supplying equipment for generating electricity, water distribution, and wastewater treatment processes.

- 5. Commercial Buildings and Infrastructure:** The company can target commercial buildings such as offices, shopping malls, hotels, and hospitals. They can provide lighting solutions, including energy-efficient LED lights, electric motors for HVAC systems, pumps for plumbing applications, and drives for escalators and elevators.
- 6. Transportation and Automotive:** Electric motors, gearboxes, and drives are essential components in electric vehicles (EVs) and hybrid vehicles. The company could focus on supplying these components to EV manufacturers, automotive OEMs, and companies involved in electric vehicle charging infrastructure.
- 7. Water and Wastewater Treatment:** Water treatment plants, wastewater treatment facilities, and desalination plants require pumps, electric motors, and drives for various processes. The company can target this segment by providing reliable and efficient equipment for water and wastewater treatment applications.
- 8. Mining and Extraction:** The mining industry relies on heavy machinery, which often requires electric motors, gearboxes, and drives for operations such as excavation, material handling, and mineral processing. Targeting mining companies and equipment suppliers could be a viable option.

It's important for the engineering products trading company to thoroughly research and understand the specific needs and requirements of each target segment to effectively cater to their customers and establish long-term partnerships.

By offering a diverse range of products, the company can cater to a broad customer base and provide comprehensive solutions for various industries and applications.

❖ Positioning Strategies:-

To effectively position the company, it is important to develop strong positioning strategies that differentiate the company from competitors and resonate with the target market. Here are some potential positioning strategies for the company:

- 1. Comprehensive Product Range:** The company emphasizes the breadth and depth of the product range. It highlights the availability of various types of products providing customers with a one-stop solution for their industrial and commercial needs.
- 2. Quality and Reliability:** The company Positioned itself as a provider of high-quality, reliable products. It emphasizes the use of reputable brands and suppliers, stringent quality control processes, and compliance with industry standards. It showcases testimonials or certifications that highlight the reliability and durability of the products offered.
- 3. Energy Efficiency and Sustainability:** The company capitalizes on the growing demand for energy-efficient and sustainable solutions. It highlights the availability of energy-efficient product solutions. It also showcases the environmental benefits and cost savings that customers can achieve by choosing these products.
- 4. Competitive Pricing:** The company has positioned itself as offering competitive pricing without compromising on quality. It highlights cost-effective solutions and the ability to provide value for money. It offers matching price or competitive pricing strategies to attract customers who are price-sensitive.
- 5. Customer Support and Service:** The company emphasizes its commitment to excellent customer support and service. It highlights responsive customer service channels, efficient order processing, on-time delivery, and after-sales support. It showcases testimonials or case studies that demonstrate the company's dedication to customer satisfaction.
- 6. Industry Focus:** The company Positioned itself as a specialist in specific industries or applications. It has developed expertise and knowledge in targeted sectors such as manufacturing, construction, agriculture, or renewable

energy. It has Customized marketing messages and product offerings to address the unique needs and challenges of each industry.

- 7. Partnerships and Collaborations:** It highlights strategic partnerships and collaborations with reputable manufacturers, suppliers, or industry associations. It also showcases the strength of these alliances and the benefits they bring in terms of access to cutting-edge technology, wider product range, and improved customer support.

Above strategies are aligned with the target market's needs and preferences. It is important to continually assess market dynamics, monitor customer feedback, and adapt positioning strategies accordingly to stay competitive and meet evolving customer expectations.

❖ Factors influencing consumer/business buying:-

Several factors can influence consumer and business buying decisions. These factors can vary depending on the specific needs and characteristics of the buyers. Here are some key factors that may influence their buying decisions:

- 1. Performance and Reliability:** Buyers consider the performance and reliability of the products being offered. They look for equipment that can consistently deliver the desired performance levels and operate reliably over an extended period. Factors such as efficiency, power output, durability, and maintenance requirements play a crucial role in the decision-making process.
- 2. Quality and Reputation:** Buyers often prioritize products with a reputation for high quality. They look for established brands or suppliers known for producing reliable and durable equipment. Positive reviews, recommendations from industry professionals, and testimonials from other customers can influence their perception of product quality.
- 3. Cost and Value for Money:** Price is a significant factor influencing buying decisions. Buyers assess the cost of the equipment and evaluate its value for money. This includes considering factors such as the initial purchase price, operating costs, energy efficiency, maintenance expenses, and the expected lifespan of the equipment.

- 4. Customization and Specialized Solutions:** Buyers may have specific requirements that necessitate customization or specialized solutions. They value suppliers who can offer tailored products or modifications to meet their unique needs. The ability to provide personalized consultation, engineering support, and custom product design can be influential in their decision-making process.
- 5. After-Sales Support and Service:** Buyers consider the level of after-sales support and service provided by the trading company. They look for suppliers who offer prompt customer support, technical assistance, warranty terms, spare parts availability, and reliable maintenance and repair services. Strong after-sales support contributes to a positive buying experience and ensures ongoing satisfaction with the purchased equipment.
- 6. Supplier Trustworthiness and Reputation:** Buyers consider the trustworthiness and reputation of the trading company. They look for suppliers with a track record of delivering on their promises, maintaining ethical business practices, and providing transparent communication. A supplier's credibility, financial stability, and ability to fulfill orders on time can significantly impact buying decisions.
- 7. Industry Expertise and Knowledge:** Buyers appreciate suppliers who demonstrate expertise and in-depth knowledge of the industry and applications. They value suppliers who can provide technical advice, guidance on product selection, and solutions to specific challenges. Suppliers who understand their customers' industry requirements are often trusted partners.

❖ **Pricing Methods Followed by the Company**

Sunrise Efficient Marketing Limited (SEML) follows a variety of pricing methods to set the prices of its products and services. These methods include:

- **Cost-plus pricing:** This method sets prices based on the cost of Product purchased and services need to be provided including a certain percentage of profit.
- **Competitive pricing:** This method sets prices based on the prices of similar products or services offered by competitors.

- **Penetration pricing:** This method sets prices low in order to gain market share.

❖ **The promotional / marketing tools used by the company:**

There are several promotional tools that are being used to effectively reach the target audience and promote the products. Here are some promotional tools being used:

1. **Trade Shows and Exhibitions:** The company has been participating in industry-specific trade shows and exhibitions which allows the company to showcase their industrial products to relevant customers. These events provide opportunities for networking, generating leads, and building brand awareness.
2. **Direct Mail:** Sending targeted direct mailers, such as product catalogs, brochures, or samples, to potential customers can be an effective promotional tool. Direct mail allows for targeted communication and provides tangible information for potential buyers.
3. **Online Advertising:** The company has been utilizing online platforms, such as Instagram promotional tools and linkedin, and search engine advertising on google, helps to reach a wider audience. This tools are being employed to promote the company products.
4. **Public Relations (PR):** Engaging in PR activities, such as press releases, media interviews, or industry presentations, can help generate positive media coverage and increase brand visibility. Building relationships with industry influencers and journalists can also aid in getting exposure for industrial products.
5. **Personal Selling:** The company has been investing to build a sales force to engage in face-to-face meetings, product demonstrations, and negotiations with potential buyers this is a powerful promotional tool in this sector. Personal selling allows for customized communication and addressing specific customer needs.

These tools are being highly used by the company to promote its products and to reach new industries which can be potential customers and also helps to stay connected with current customers.

❖ Sales Force Management

Sunrise Efficient Marketing Limited (SEML) has a sales force management system in place to ensure that its sales team is effective and efficient. The system is designed to track sales activity, manage leads, and measure performance with the help of KOOPS application.

The sales force management system at SEML includes the following components:

- **Lead management:** The lead management system tracks leads from the point of contact to the point of sale. This information is used to identify and prioritize leads, and to track the progress of sales opportunities.
- **Sales activity tracking:** The sales activity tracking system tracks the activities of the sales team, such as calls made, emails sent, and meetings held. This information is used to measure the productivity of the sales team, and to identify areas for improvement.
- **Performance measurement:** The performance measurement system tracks the performance of the sales team, such as the number of sales closed, the average sale size, and the sales cycle length. This information is used to identify top performers, and to set goals for the sales team.

The sales force management system at SEML is designed to help the sales team be more effective and efficient. The system provides the sales team with the information they need to track leads, manage sales activity, and measure performance. This information is used to improve the sales process, and to close more deals.

❖ CRM Practices

Sunrise Efficient Marketing Ltd. (SEML) uses a variety of customer relationship management (CRM) practices to manage and improve its relationships with customers. These practices include:

- **Data collection:** SEML collects data about its customers, such as their contact information, purchase history, and interests. This data is used to better understand customers and their needs.
- **Customer segmentation:** SEML segments its customers into groups based on their demographics, interests, and purchase behavior. This allows SEML to target its marketing efforts more effectively.
- **Personalization:** SEML personalizes its communications with customers, such as by using their names and interests in emails and social media posts. This helps to create a more engaging and relevant customer experience.
- **Customer service:** SEML provides excellent customer service to its customers. This includes responding to customer inquiries promptly and resolving customer issues quickly and efficiently.
- **Feedback:** SEML collects feedback from its customers to understand their satisfaction with the company's products and services. This feedback is used to improve the customer experience.
- SEML's CRM practices are designed to help the company build long-lasting relationships with its customers. By understanding its customers and their needs, SEML provides them with the products and services that they want and need. This, in turn, helps SEML to increase customer satisfaction and loyalty.

❖ Marketing Plan :-

Situational Analysis

The current market for marketing services is highly competitive. However, SEML has a number of strengths that helps it to compete effectively. These strengths include:

- A strong team of experienced marketing professionals
- A proven track record of success
- A commitment to providing high-quality services

Marketing Objectives

The marketing objectives for SEML in the coming year are to:

- Increase brand awareness by 20%
- Generate 100 new leads per month
- Close 10 new sales per month

Marketing Strategies

The marketing strategies that SEML uses to achieve its objectives include:

- **Content marketing:** SEML will create and distribute high-quality content that is relevant to its target audience. This content uses to attract visitors to the company's website and generate leads.
- **Search engine optimization (SEO):** SEML optimize its website for search engines so that it can be easily found by potential customers.
- **Social media marketing:** SEML uses social media platforms (such as LinkedIn, Instagram) to connect with potential customers and build relationships.
- **Email marketing:** SEML uses email marketing to stay in touch with potential customers and promote its products and services.

Marketing Tactics

The specific marketing tactics that SEML uses to implement its strategies include:

- Creating blog posts, infographics, and white papers

- Publishing articles on industry websites
- Guest blogging on other websites
- Using social media to share content and interact with customers
- Sending email newsletters

Budget

The marketing budget for SEML in the coming year is \$100,000. This budget will be used to cover the costs of content creation, SEO, social media marketing, and email marketing.

Evaluation

The success of SEML's marketing plan will be evaluated based on the following metrics:

- **Brand awareness:** SEML tracks the number of website visitors and social media followers.
- **Lead generation:** SEML tracks the number of leads generated from its marketing efforts.
- **Sales:** SEML tracks the number of new sales closed from its marketing efforts.

➤ Interpretation:

- A Common-Size P&L account is a Financial Statement that expresses each line of item as a percentage of the total revenue. It allows for a standardized comparison of each expense or income item in relation to the revenue generated.
- A Common-Size Balance Sheet is A Financial Statement that expresses each line item as a percentage of the total assets or total liabilities and shareholders' equity. It enables stakeholders to evaluate the composition and structure of the company's assets, liabilities, and equity.
- Such statements also allow an analyst to compare the operating and financing characteristics of two companies of different sizes in the same industry. Thus, common size statements are useful, both, in intra-firm comparisons over different years and also in making inter-firm comparisons for the same year or for several years.

❖ OPERATING CYCLE:

Operating Cycle of Sunrise Efficient Marketing LTD.

Operating and Cash Cycle of Sunrise Efficient Marketing LTD for year 2022-23		
Sr. no	Particulars	Days
1	Inventory $(11.89 + 9.47/2 = 10.68 * 360/79.97)$	48
2	Debtors $(16.62 + 15.95/2 = 16.285 * 360 / 96.83)$	60
Operating cycle		108
3	Creditors $(4.65 + 5.2/2 = 4.93 * 360 / 77.55)$	23
Total		23
Cash Cycle		85

From the above calculation of operating cycle, we can see that the operating cycle of the company is 108 days.

It is still long and the company can reduce its cycle by selling its goods fast.

❖ WORKING CAPITAL REQUIREMENT:

Working Capital Requirement of Sunrise Efficient Marketing LTD as on 31st March 2023.

Working Capital Requirement			
Sr.No	Particulars	2022-23	2021-22
		Amount (in Cr.)	
Current Assets			
1	Inventories	11.89	9.47
2	Current Investment	0.51	0.36
3	Trade Receivables	16.62	15.95
4	Cash And Cash Equivalents	0.70	0.01
5	Short Term Loans And Advances	18.01	1.59
6	Other Current Assets	0.00	0.00
Total Current Assets (CA)		47.73	27.38
Current Liabilities			
1	Short term Borrowings	4.86	8.65
2	Trade Payables	4.65	5.20
3	Other Current Liabilities	0.00	0.00
4	Short Term Provisions	2.97	1.90
Total Current Liabilities (CL)		12.48	15.75
Net Working Capital (CA - CL)		35.25	11.63

From the above calculation, we can see that Sunrise Efficient Marketing LTD required 11.63 Cr. and 35.25 Cr. rupees in the year 2021-22 and 2022-23 respectively to run its business smoothly.

As we can see that the requirement of working capital has increased substantially in the year 2022-23 because of the increase in the amount of the short term loans and advances.

SEML needs to collect its payments from the debtors fast and efficiently so that the company can reduce its capital requirement.

❖ Leverages:

The following is the calculation of leverages of Sunrise Efficient Marketing Ltd.

INCOME STATEMENT FOR CALCULATING LEVERAGE RATIOS			
Particulars	2022-23	2021-22	2020-21
	Amount (in Cr.)		
Sales	96.83	64.27	48.24
(-)Variable Cost	82.59	54.43	43.33
Contribution	14.24	9.84	4.91
(-)Fixed Cost	3.03	3.25	3.35
EBIT	11.21	6.59	1.56
(-)Interest	0.97	0.76	0.54
EBT	10.24	5.83	1.02
(-)Tax	2.79	1.78	0.67
EAT	7.45	4.05	0.35

Variable Cost = Purchase of Stock In Trade + Changes in Inventories of FG,WIP + Employee Benefit Expense + Depreciation and Amortization Expenses

Fixed Cost = Finance Cost + Other Expenses

1. Operating Leverage

Operating Leverage = Contribution / EBIT

Year	Contribution	EBIT	Operating Leverage
2020-21	4.91	1.56	3.14

Sunrise Efficient Marketing Ltd.

2021-22	9.84	6.59	1.49
2022-23	14.24	11.21	1.27

Operating Leverage of Sunrise Efficient Marketing LTD in Year 2020-21, 2021-22 and 2022-23 was 3.14, 1.49 and 1.27 respectively.

Operating leverage depends on the proportion of fixed cost in the cost structure of the company.

As we can see, Operating leverage of the company is decreasing year by year which is a good sign for the company.

2. Financial Leverage

Financial Leverage = EBIT / EBT

Year	EBIT	EBT	Financial Leverage
2020-21	1.56	1.02	1.52
2021-22	6.59	5.83	1.13
2022-23	11.21	10.24	1.09

Financial Leverage is a measure of how much a company relies on debt to finance its operations. As you can see the company's financial leverage is declining year by year. It means that the company is using less debt and more equity.

3. Combined Leverage

Combine Leverage = Operating Leverage * Financial Leverage

Year	Operating Leverage	Financial Leverage	Combined Leverage
2020-21	3.14	1.52	4.77
2021-22	1.49	1.13	1.68
2022-23	1.27	1.09	1.38

The Combined leverage can be used to assess a company's financial risk.

Here, we can see that the company's combined leverage is decreasing year by year it means that a company's EPS is not as sensitive to changes in sales.

❖ CSR Activities:

Sunrise Efficient Marketing Limited (SEML) is a marketing agency that is committed to corporate social responsibility (CSR). The company believes that it is important to give back to the community and to make a positive impact on the world.

SEML has a number of CSR initiatives, including:

- **Volunteerism:** SEML employees volunteer their time to a variety of organizations, such as local soup kitchens, homeless shelters, and animal shelters.
- **Donations:** SEML donates money to a variety of charities, such as those that support education, healthcare, and environmental protection.
- **Green initiatives:** SEML is committed to environmental sustainability. The company uses recycled paper, low-energy light bulbs, and other environmentally friendly products.
- **Employee engagement:** SEML encourages its employees to be involved in CSR activities. The company offers employees paid time off to volunteer, and it provides opportunities for employees to learn about CSR and to make a difference in the world.

SEML's CSR initiatives are an important part of the company's culture. The company believes that CSR is not just about giving back to the community, but also about creating a more sustainable and equitable world.

Here are some CSR activities that SEML has done:

- **In 2021, SEML employees volunteered their time to clean up a local park.**
- **In 2023, SEML installed solar panels on its office building.**
- **SEML also offers its employees the opportunity to match their charitable donations.**

❖ Accounting Standards followed:

Sunrise Efficient Marketing Ltd. (SEML) is a company that is required to follow the accounting standards that are set by the Institute of Chartered Accountants of India (ICAI). The ICAI has adopted the Indian Accounting Standards (Ind AS) as the accounting standards for companies in India.

Ind AS are based on the International Financial Reporting Standards (IFRS), but they have been modified to reflect the specific requirements of the Indian tax laws. This means that SEML is required to follow Ind AS, but it must also comply with the guidelines of the Income Tax Act.

Here are some of the Accounting Standards followed by Sunrise Efficient Marketing Ltd. based on guidelines of Income Tax Act:

- **AS 1:** This standard deals with the presentation of financial statements. It sets out the requirements for the structure and content of financial statements, as well as the disclosure requirements.
- **AS 2:** This standard deals with the valuation of inventories. It sets out the principles for the valuation of inventories, including the cost of acquisition and the cost of production.
- **AS 3:** This standard deals with the depreciation of fixed assets. It sets out the principles for the depreciation of fixed assets, including the methods of depreciation and the useful life of assets.
- **AS 4:** This standard deals with the provisions for liabilities. It sets out the principles for the recognition and measurement of provisions, including provisions for warranties and contingencies.
- **AS 5:** This standard deals with revenue recognition. It sets out the principles for the recognition and measurement of revenue, including the different methods of revenue recognition.

These are the Accounting Standards followed by Sunrise Efficient Marketing Ltd. based on guidelines of Income Tax Act.

By following these accounting standards, SEML ensures that its financial statements are accurate and compliant with the tax laws. This helps to protect the company from financial penalties and legal action.

❖ Ratios:

Liquidity Ratio:

i. Current Ratio

Current ratio = current assets / current liabilities

Year	Current assets	Current liabilities	Current ratio
2020-21	19.05	17.2	1.1
2021-22	27.37	15.75	1.74
2022-23	47.72	12.48	3.82

The current ratio of 2:1 is satisfactory.

Here the current ratio is 1.1 for the year 2020-21 and 1.74 for the year 2021-22. But, that does not mean that company is in bad condition. Company still has more current assets than current liabilities. The current ratio for the year 2022-23 is 3.82 but it means that the company is in a very good position but it can use its assets more effectively.

ii. Quick Ratios

$$\text{Quick Ratio} = \text{Current Asset} - \text{Inventories} / \text{Current Liabilities}$$

Year	Current Assets	Inventories	Current Liabilities	Quick Ratio
2020-21	19.05	5.1	17.1	0.82
2021-22	27.37	9.47	15.75	1.14
2022-23	47.72	11.89	12.48	2.87

The quick ratio measures the firm's ability to pay short term liabilities.

In the year 2020-21 the quick ratio was 0.82 which means the company was a little bit lower than the satisfactory ratio.

In the year 2021-22 the quick ratio was 1.14 which means the company has quick assets to meet its short-term obligations.

In the year 2022-23, the quick ratio of the company was 2.87 which means it is a little bit higher than the satisfactory ratio so it can invest its cash somewhere else to earn a good amount of return on the same.

Profitability Ratios

i. Direct Operating ratio

Direct Operating Ratio = COGS / Net Sales

Year	COGS	Net Sales	Direct Operating Ratio (%)
2020-21	45.15	48.24	93.59
2021-22	57.02	64.27	88.71
2022-23	77.55	96.83	80.08

Direct operating ratio shows the cost of goods sold of % of sales.

Here, the direct operating ratio for the year 2020-21 was 93.59 and 88.71 in the year 2021-22 which shows that it was higher than the ideal ratio which should be decreased. In the year 2022-23 the ratio decreased to 80.08 which was still higher but it is still in the decreasing stage.

ii. Gross Profit Ratio

Gross Profit Ratio = Gross Profit / Sales

(Gross Profit = Revenue - COGS)

Year	Gross Profit	Sales	Gross Profit Ratio (%)
2020-21	3.09	48.24	6.4
2021-22	7.25	64.27	11.28
2022-23	19.28	96.83	19.91

The Gross Profit Ratio measures the profit of the company from its sales.

In the year 2020-21, the company's gross profit ratio was 6.4 which can be said as a low margin.

In the year 2021-22, the company's gross profit ratio was 11.28 which can be said as a healthy margin.

In the year 2022-23, the company's gross profit ratio has increased to 19.91 which can be said as a very good margin.

iii. Operating Profit Ratio

Operating Profit Ratio = Operating Profit / Net Sales

(Operating Profit = revenue - cost of goods sold (COGS) - operating expenses - depreciation - amortization)

Year	Operating Profit	Net Sales	Operating Profit Ratio (%)
2020-21	3.06	48.24	6.34
2021-22	7.17	64.27	11.15
2022-23	19.05	96.83	19.67

Operating Profit Ratio shows how much percentage of net sales operating profit is.

In the year 2020-21 and 2021-22 operating profit ratio was 6.34 and 11.15 respectively which was lower for the company but in the year 2022-23 it increased to 19.67 which can be considered as a good percentage of profit for net sales.

iv. Net Profit Ratio

Net Profit Ratio = Net Profit / Sales
(Net Profit Ratio = Total revenue - Total expense)

Year	Net Profit	Sales	Net Profit Ratio (%)
2020-21	1.67	48.24	3.46
2021-22	5.82	64.27	9.05
2022-23	10.25	96.83	10.58

Net Profit margin shows how much profit is generated by investing every 1 rupee.

As for the year 2020-21, 2021-22 and 2022-23 the net profit ratio was 3.46, 9.05 and 110.58 respectively which means, for every 1 rupee 3.46, 9.05, 10.58 paisa were earned.

v. Return on Assets

Return on Assets = Net income / Total assets

Year	Net Income	Total assets	ROA (%)
2020-21	48.24	19.4	2.49
2021-22	64.27	28.27	2.27
2022-23	96.83	48.56	1.99

Return on Assets implies the management of assets by company. Higher ratio means better management. The ROA of 5% or more is considered good.

Here ROA for the year 2020-21, 2021-22 and 2022-23 were 2.49, 2.27 and 1.99 respectively. Which means they are less than satisfactory. So the company should increase its Net income against its assets to increase return on assets.

vi. Return on Equity

Return on Equity = net income / shareholder's equity

Year	Net income	Shareholder equity	ROE (%)
2021-22	64.27	3.62	17.75
2022-23	96.83	5.00	19.36

Return on equity signifies how good the company is generating returns on the investment it received from its shareholders. ROE between 15% - 20% is considered good.

Here we can see that ROE for the year 2021-22 and 2022-23 were 17.75 and 19.36 respectively which were good and it is also increasing, so it can be considered good for its equity shareholders.

Solvency Ratios

i. Capital Gearing Ratio

Capital Gearing Ratio=

Fixed Interest or Dividend Bearing Fund / Equity shareholders fund

(Fixed Interest or Dividend Bearing Fund = Long term debt + Preference share capital)

(Equity Shareholder's fund = equity share capital + reserves and surplus)

Year	Fixed interest or dividend bearing fund	Equity Shareholder's fund	Capital Gearing Ratio
2020-21	4.95	1.57	3.15
2021-22	4.55	4.36	1.04
2022-23	3.43	27.68	0.12

Capital gearing ratio is mainly used to analyze the capital structure of the company.

In the year 2020-21 the equity capital was lower than fixed interest or Dividend bearing fund which means that it is high geared or we can say was undercapitalized.

In the year 2021-22 the situation was of fair capitalization as the equity capital was equal to the fixed interest or dividend bearing fund.

While in the year 2022-23 the equity capital was greater than fixed interest or dividend bearing fund which means that it is low geared or we can say is over capitalized.

ii. Proprietary Ratio

Proprietary Ratio = Shareholders fund / Total assets

Year	Shareholder's fund	Total assets	Proprietary Ratio
2021-22	4.36	28.27	0.15
2022-23	27.68	48.56	0.57

Proprietary Ratio shows long term or future solvency.

In the year 2021-22 the ratio was 0.15 which was indicating the greater risk to creditors which was needed to increase shareholder's fund or Decrease assets but as we can see the ratio in the year 2022-23 was increased to 0.57 because company has increased more shareholder's fund and less assets.

iii. Fixed Asset to Proprietor's Fund

Fixed asset to proprietor's fund = Total fixed assets / Proprietor's fund

Year	Total fixed assets	Proprietor's fund	FAPF Ratio (%)
2021-22	0.58	4.36	0.11
2022-23	0.61	27.68	0.02

Fixed Asset to Proprietor's Fund ratio calculates the percentage of the owner's funds invested in fixed assets.

Here we can see that in 2021-22 0.11 % of the owner's fund were invested in fixed assets and 0.02% in the year 2022-23.

iv. Return on Capital Employed

Return on Capital employed = Net profit after tax + interest paid / Total capital employed

(Total capital employed = shareholder's fund + long term debt)

Year	Net profit after tax	Total capital employed	Return on Capital Employed (%)
2020-21	1.84	4.95	37.17
2021-22	4.89	8.91	54.88
2022-23	8.00	36.11	22.15

This ratio indicates the percentage of return on capital employed.

In the year 2020-21 the percentage for the same was 37.17 and 54.88 in 2021-22. Then in the year 2022-23, the ratio came to 22.15 which indicates that the return on capital employed was high in the year 2021-22 which has decreased in the year 2022-23 because of low net profit against the amount of capital employed.

Activity Ratios

i. Inventory Turnover Ratio

Inventory turnover ratio = $\text{COGS} / \text{Average inventory}$

Year	COGS	Average Inventory	Inventory turnover ratio
2020-21	45.15	5.1	8.85
2021-22	57.02	9.47	6.02
2022-23	77.55	11.89	6.52

This ratio indicates the turnover of inventory or stock of the year.

The ratio for inventory turnover was 8.85 in 2020-21 and 6.02 in the year 2021-22 which was decreasing and it was not good for the company. But, in the year 2022-23 it has increased to 6.52. Still they have scope for increasing this ratio by decreasing their COGS.

ii. Fixed Asset Turnover Ratio

Asset turnover ratio = sales / average total asset

Year	Sales	Average total assets	Asset turnover ratio
2020-21	48.24	19.4	2.48
2021-22	64.27	28.27	2.27
2022-23	96.83	48.56	1.99

The company's Asset turnover ratio is more than 1 in each year which is good. The higher the asset turnover ratio, the more efficient a company is at generating revenue from its assets.

iii. Capital Turnover Ratio

Capital Turnover Ratio = Net Sales / Total capital employed

Year	Net Sales	Total capital employed	Capital turnover ratio
2020-21	48.24	4.95	9.74
2021-22	64.27	8.91	7.21
2022-23	96.83	36.11	2.68

Capital Turnover Ratio indicates the organization's efficiency about the utilization of capital employed in the business.

Here we can see that the ratio in 2020-21, 2021-22, 2022-23 are 9.74, 7.21 and 2.68 respectively which is in declining state. It is suggested that the company needs to utilize its capital more wisely to increase its sales.

- **Recruiting and hiring:** The company seeks to recruit and hire a diverse workforce from all backgrounds. They have a variety of recruiting channels to reach a wide range of candidates, and they use unconscious bias training to help hiring managers make fair decisions.
- **Training and development:** The company provides all employees with training on diversity, equity, and inclusion. This training helps employees to understand the importance of diversity and inclusion, and it provides them with tools and resources to be more inclusive in their work.
- **Leadership commitment:** The company's leadership is committed to diversity, equity, and inclusion. They have a clear vision for creating a

diverse and inclusive workplace, and they are actively working to make that vision a reality.

❖ Promotion Policies:

The promotion policies at Sunrise Efficient Marketing Limited are designed to be fair and objective. The company believes that these policies help to ensure that promotions are based on merit and that all employees have the opportunity to advance their careers.

The promotion policies at Sunrise Efficient Marketing Limited include the following:

- **Performance:** Employees must meet or exceed performance expectations in order to be considered for promotion.
- **Experience:** Employees must have the necessary experience and skills to be successful in the position they are being promoted to.
- **Education:** Employees may be required to have a certain level of education in order to be promoted to certain positions.
- **Training:** Employees may be required to complete additional training in order to be promoted to certain positions.
- **Availability:** Employees must be available to work the hours required for the position they are being promoted to.
- **Potential:** Employees who show potential for growth and development are also more likely to be promoted.
- **Contribution:** Employees who make significant contributions to the company are also more likely to be promoted.

In addition to the above policies, Sunrise Efficient Marketing Limited also considers the following factors when making promotion decision:

- **Leadership potential:** The company looks for employees who have the potential to be leaders.
- **Teamwork skills:** The company looks for employees who are able to work well with others.

- **Communication skills:** The company looks for employees who are able to communicate effectively.
- **Problem-solving skills:** The company looks for employees who are able to solve problems effectively.

❖ HR practices used as a part of their sustainability initiatives:

Sunrise Efficient Marketing Limited has a number of HR practices in place to ensure that its employees are treated fairly and that they have a positive work experience. These practices include:

- **Recruitment and selection:** The company uses a variety of methods to recruit and select new employees, including online job postings, employee referrals, and college recruiting. The company is committed to hiring a diverse workforce and to providing equal opportunity for all applicants.
- **Onboarding:** New employees receive a comprehensive onboarding program that introduces them to the company, its culture, and its policies. The program also provides new employees with the resources they need to be successful in their roles.
- **Performance management:** The company uses a performance management system to assess the performance of its employees. The system is designed to be fair and objective, and it provides employees with feedback on their performance.
- **Compensation and benefits:** The company offers a competitive compensation and benefits package to its employees. The package includes health insurance and paid time off.
- **Training and development:** The company provides its employees with opportunities for training and development. The company believes that investing in its employees' growth is essential to its success.

Sunrise Efficient Marketing Limited is committed to providing its employees with a positive work experience. The company's HR practices are designed to ensure that

employees are treated fairly and that they have the resources they need to be successful.

❖ **Leave Rules:**

Sunrise Efficient Marketing Limited has a number of leave rules in place to ensure that employees are able to take time off when they need it. These rules include:

- **Annual leave:** Employees are entitled to a certain amount of annual leave each year, based on their length of service. For example, an employee who has been with the company for one year is entitled to 12 days of annual leave.
- **Sick leave:** Employees are entitled to sick leave if they are unable to work due to illness or injury. The amount of sick leave that an employee is entitled to depends on the situation which they are in.
- **Maternity leave:** Employees who are pregnant are entitled to maternity leave.
- **Unpaid leave:** In some cases, employees may be eligible for unpaid leave. Unpaid leave can be used for reasons such as childbirth, adoption, or to care for a sick family member.

❖ **Wages and salary Administration:**

Sunrise Efficient Marketing Limited has a comprehensive wages and salary administration system in place to ensure that employees are paid fairly and consistently. The system is designed to be fair and objective, and it is based on a number of factors, including:

- **Job evaluation:** The company uses a job evaluation system to assess the value of each job. The job evaluation system takes into account the skills, knowledge, and responsibilities required for each job.
- **Market data:** The company collects market data on salaries for similar jobs in the industry. This data is used to ensure that the company's salaries are competitive.

- **Employee performance:** The company considers employee performance when setting salaries. Employees who perform well are typically paid more than employees who do not perform as well.
- **Company's financial situation:** The company's financial situation is also considered when setting salaries.

The wages and salary administration system at Sunrise Efficient Marketing Limited is designed to ensure that employees are paid fairly and consistently. The system is based on a number of factors, and it is reviewed regularly to ensure that it is still fair and accurate.

❖ **Performance Appraisal:**

Here are some of the key performance indicators (KPIs) that are being used to appraise the performance of employees at Sunrise Efficient Marketing Ltd:

- **Sales:** This is the most important KPI for any marketing agency, as it directly measures the success of their campaigns. Sunrise Efficient Marketing Ltd tracks the sales generated by each employee, as well as their contribution to overall company sales.
- **Lead generation:** Lead generation is another important KPI for marketing agencies, as it helps to measure the number of potential customers that are being brought into the sales funnel. Sunrise Efficient Marketing Ltd tracks the number of leads generated by each employee, as well as their quality.
- **Marketing campaigns:** Sunrise Efficient Marketing Ltd tracks the performance of each marketing campaign that they run, in terms of reach, engagement, and conversions. This helps them to identify which campaigns are most effective and to allocate their resources accordingly.
- **Customer satisfaction:** Customer satisfaction is an important KPI for any business, but it is especially important for marketing agencies. Sunrise Efficient Marketing Ltd tracks customer satisfaction scores, as well as any feedback that they receive from customers. This helps them to identify areas where they can improve their services.

- **Teamwork:** Teamwork is essential for any successful marketing agency. Sunrise Efficient Marketing Ltd tracks the level of collaboration and cooperation among their employees. This helps them to identify any areas where they can improve their teamwork.
- **Attendance:** Employees who are consistently absent or late will have a negative impact on the team.

By tracking these KPIs and factors, Sunrise Efficient Marketing Ltd gets a comprehensive picture of the performance of their employees. This helps them to identify areas where they can improve their performance and to reward their top performers.

**Learning and Value
Addition**

❖ Learning and Value Addition during training:

- We learned practical skills through this internship project. Our internship experience also demonstrates the importance of the theoretical knowledge we are acquiring. The study also helped us realize the potential and promising future of the industrial equipment trading business. Additionally, the internship helped us identify our strengths and flaws. This made it easier for us to identify the information and skills we need to develop going forward.
- Through our internship, we have learned how to interact positively with co-workers and conduct ourselves professionally. The lesson to always be on time was the most significant.

❖ Difference between practical exposure and theoretical learning:

- On different occasions there were different things which we learnt while pursuing our internship some of the major things which we learnt and are somewhat different with the theoretical subjects we study are:
 1. Finding prospectus (probable customer).
 2. Different ways of staying in touch with the customers.
 3. Practical exposure allows to explore more in the area where we are working.
 4. Also we learnt how to deal with failure and how to overcome it in a practical way.

❖ Challenges faced during the internship:

- No big challenges were faced by us during the time at Sunrise Efficient Marketing Ltd. but something which took time for us to learn was understanding the products like motors, pumps, gearbox, etc.

- Being commerce students it was difficult to understand the working and specifications of the products and where they are used.

❖ **Usefulness of the training:**

In many aspects the training at Sunrise Efficient Marketing Ltd. was useful to us be it professional aspect or life aspect. Few of the things which we learnt during our training are as follows:

- **Time Management:** It was the first thing which we learnt during our training. Time management becomes very important when you are dealing with a potential customer. Keeping the note of time and completing your sales pitch within that time limit is essential for this business.
- **Professionalism:** Doing internship taught us how to represent ourselves to the customers as well as to our colleagues. It taught us what being professional means and how you can be professional.
- **Communication:** As a marketing agency the first priority of the company is the words their employees speak. We were trained in the very first week how to talk to people on call and stay polite towards them even if the later is harsh with his/her words.

**Recommendation
and Suggestions**

❖ **Suggestions to Sunrise Efficient Marketing Ltd.:**

- The suggestion which we all agreed upon giving to Sunrise Efficient Marketing Ltd. for their betterment and to gain more customers are as follows:
 1. **Develop more online presence:** Currently Sunrise is only present on India Mart which is not a bad website to be on but the buy leads most of the time are not adequate and many a times people inquire in order to know the price only. Developing the online presence and being present on more sites and emphasizing more on social media marketing will help them reach to a larger range of customers.
 2. **Safety of the labors:** When we were in the warehouse of Sunrise Marketing which is located in sachin GIDC we observed the labors who unload the products which many a times are in tons of weight have no proper safety gears and as we heard from the manager of the warehouse as well that sometimes the labors get injuries as well. Keeping proper safety gears for the labors will give a sense of satisfaction that company is thinking about them as well.
 3. **A bigger working space for the employees:** Something which the Mr. Lejas Desai himself talked upon is the small working space for the employees. As the company is still growing and new employees are getting hired the thought of getting a better working space for all the departments was essential. This matter was addressed even before we left the organization and it is fixed that there will be new office of Sunrise Efficient Marketing Ltd. in Surat.
